

CareeRs++ in Computer Science, Maths and Stats

Thursday 5th August 2010, 6.00pm to 8.00pm
Engineering Lecture Theatre 1.439

CareeRs++ in Computer Science, Maths and Stats will provide students with the opportunity to attend an employer panel and mini expo. This is an excellent new opportunity for you to speak face-to-face with potential employers, find out about emerging careers, what's new in industry, what employers look for when recruiting interns and graduates/postgraduates. This event begins with an Employer Panel chaired by Professor James Sneyd, which will be followed by networking and nibbles at a less formal Expo event with many employers from industries relevant to your degrees.

The format for the evening will be as follows:

- 6.00pm Welcome & Introduction
- 6.05pm Discussion of employers chaired by Professor James Sneyd
- 6.45pm Question time from students
- 7.00pm Expo with more employers**
- 8.00pm Conclusion

** Expo held in Engineering Foyer

You need to register on CareerHub for the event, this is important so we know how many students will be attending, and also for catering requirements as light refreshments are provided.

This event is for students studying stage 1 and above, including Postgraduates.

Give yourself the edge and move from campus to career!
