

Computer Laboratories for Mathematics and Statistics

The computer laboratories for the Mathematics and Statistics Departments are in the basement of the south end of the Mathematics/Physics building (Bldg 303).

- Labs website: www.scl.ec.auckland.ac.nz
- Access is either from the basement of the Mathematics/Physics building or from the foyer near the Science Faculty Student Centre.
- The Basement Computer Laboratory (BCL, B91) is open as follows:
Monday to Thursday: 9am to 8pm; Friday: 9am to 5pm; Saturday and Sunday: closed.
- To use a lab computer you will need your NetAccount username and password. You can get your username and initial password by swiping your ID card at one of the printers. You can also do this at the Information Commons. If you have forgotten your password, go to the Information Commons to get it reset.
- To print, swipe your ID card at one of the printers. Ask a demonstrator for help if you have any problems.
- When BCL is closed, or full, then Mathematics and Statistics students may use free computers in the Computer Science laboratories on the ground and first floors. The computers in all the labs access the same server, so it is possible to save your files in one lab and then access them again from another lab.
- Demonstrators who can help Mathematics and Statistics students will be on duty in BCL whenever it is open. They will be wearing red or yellow sashes. All demonstrators will be able to help with all first year courses and most second year courses. For more advanced courses you may need to see particular demonstrators.
- Remember that only demonstrators wearing sashes are working. If a demonstrator is in the lab without a sash, they are not on duty. Do **NOT** ask them for help.
- Food and drinks are not allowed in any of the computer labs except for bottled water. Games are not allowed in any of the computer labs. Offenders may be banned from the lab immediately -even when the assignment is due!
